SUMMARY

I'm Eager to Immerse myself in a Dynamic Learning Environment and to obtain a challenging position where I can utilize my skills and knowledge to contribute to the success of the organization.

EDUCATION

B.Tech (Information Technology)

2020-2024

- CMR Technical Campus ,kandlakoya, Medchal. CGPA: 6.76
-

GRADUATION PROJECT

Title: "A Data mining based model for the detection of Fraudulent behaviour in water consumption"

Tools & Techniques:

- Python
- K- nearest neighbour algorithm
- SVM- Support vector machine algorithm

Objective:

This study aims to enhance a data mining model to detect and analyze pattern indicative of fraudulent in water consumption and analyzed large datasets of water consumption records, extracting relevant features to enhance the accuracy of the model.

SKILLS

• **AWS & CLOUD SERVICES:** EC2(Snapshot, Auto -Scaling, Load Balancer), Cloudfront, Cloudwatch, Elastic Load Balancer

Linux & operating systems: Linux(system basics), Windows

Databases: Mysql, Amazon RDS

Programming & web development: Python, Html, CSS, Javascript

Networking: Basic networking concepts, Protocols (TCP/IP, HTTP, DNS)

PROFESSIONAL EXPERIENCE

• **WEB DEVELOPER(INTERN)- VISAS IMMIGRATION SERVICES**

03/2023-06/2023

- Designed and developed user friendly websites, ensuring responsive layouts and cross-browser compatibility.
- Worked on live project including Let's padai platform, focusing on enhancing user experience and integrating client requirements.
- Gained hands on experience in front-end technologies such as HTML, CSS and JAVASCRIPT and back end integration.

CERTIFICATIONS

- Certified for course completion in Basics of python by Infosys
- Springboard.

Certified for course completion in orbit shifters.
